Management Discussion and Analysis

For the Three and Nine Months Ended September 30, 2022

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis is management's assessment of the results and financial condition of Enthusiast Gaming Holdings Inc. (the "Company" or "Enthusiast Gaming"). The following information should be read in conjunction with the Company's unaudited condensed consolidated interim financial statements for the three and nine months ended September 30, 2022, and accompanying notes, and the Company's audited annual consolidated financial statements for the year ended December 31, 2021, and accompanying notes, all of which are available on Enthusiast Gaming's issuer profile on SEDAR at www.sedar.com and in the United States on EDGAR at www.sec.gov/edgar.

The date of this management's discussion and analysis ("MD&A") is November 14, 2022. Unless otherwise indicated, all financial data in this MD&A has been prepared in accordance with International Accounting Standards ("IAS") 34, *Interim Financial Reporting*. Condensed consolidated interim financial statements do not include all of the information required for annual consolidated financial statements and should be read in conjunction with the audited annual consolidated financial statements of the Company for the year ended December 31, 2021 which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee. This MD&A has been prepared pursuant to the disclosure requirements under National Instrument 51-102 – *Continuous Disclosure Obligations* of the Canadian Securities Administrators. Under the United States / Canada Multijurisdictional Disclosure System, the Company is permitted to prepare this MD&A in accordance with the Canadian disclosure requirements which may differ from United States disclosure requirements. All dollar amounts are stated in Canadian Dollars unless otherwise indicated.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This MD&A contains "forward-looking information" within the meaning of applicable Canadian securities legislation ("forward-looking information"). Such forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made, and readers are advised to consider such forward-looking statements in light of the risks set forth below and as detailed under "*risks and uncertainties*" in this MD&A.

Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking information, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. Forward-looking information contained herein is given as of the date of this MD&A and the Company disclaims any obligation to update any forward-looking information, whether as a result of new information, future events or results, except as may be required by applicable securities laws. There can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking information.

NON-GAAP MEASURES

There are measures included in this MD&A that do not have a standardized meaning under generally accepted accounting principles (GAAP) and therefore may not be comparable to similarly titled measures and metrics presented by other issuers and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. In particular, "working capital" is a non-GAAP measure. Enthusiast Gaming includes this measure because it believes certain investors use this measure and metric as a means of assessing financial performance and that such measure highlights trends in the Company's financial performance that may not otherwise be apparent when one relies solely on GAAP measures.

The non-GAAP measure presented in the MD&A is "working capital", which refers to current assets minus current liabilities.

Non-GAAP measures should not be considered in isolation or as a substitute for revenue, net income, cash flows generated by operating, investing or financing activities, or other financial statement data presented in accordance with GAAP, and may not be comparable to similarly titled measures used by other companies.

BUSINESS PRODUCTS AND SERVICES

Enthusiast Gaming deploys its products and services as a single reportable segment in the digital media and entertainment industry. Enthusiast Gaming's products and services fall into three principal pillars, which consist of Media and Content, Esports and Entertainment, and Subscription.

Media and Content

Enthusiast Gaming's media and content revenue stream is comprised of over 50 websites that are wholly owned or exclusively monetized by the Company and contain news, reviews, videos, live streams, blog posts, tips, chats, message boards, other video-gaming related content and casual games. Central to Enthusiast Gaming's ability to create valuable advertising space that can be sold on its websites, video channels and casual games (referred to as "Inventory") is the ability to both develop content rich digital media and foster the interaction and contributions of its users to its digital media properties. Enthusiast Gaming possesses a network of full and part-time content developers to ensure regular, interesting updates are made across its digital media properties to reflect the newest developments in the world of video games, in the form of videos, articles, blog posts, and other content.

The gaming community is drawn to different aspects and forms of content on Enthusiast Gaming's network of websites. Part of Enthusiast Gaming's strategy is to acquire profitable video gaming websites and video properties with differentiating content from its then current portfolio, providing valuable, relevant content for any gaming enthusiast. Some of the different types of content includes: long form, short form, and documentary styles of content.

Another prevalent aspect of the media content on Enthusiast Gaming's sites or video properties may be referred to as "video game journalism", an aspect of the video gaming industry whereby individuals will review, critique, and provide commentary on new and old video games, particular aspects of video games, upgrades, new hardware platforms, and other aspects of video games.

Omnia Media Inc.'s ("Omnia"), a subsidiary of the Company, principal business activities include the creation, distribution, and exploitation of owned and talent-produced gaming-related video content, as well as the representation and management of underlying talent. Omnia generates advertising revenue from its External Talent Network, its Owned and Operated Content, as well as through Direct Brand Sales through delivery of targeted advertisements on YouTube and other platforms that users click on, leading to direct engagement between users and advertisers. Omnia produces and programs over 20 weekly shows across advertising-based video on demand ("AVOD") and over-the-top ("OTT") channels and represents over 500 gaming influencers across YouTube and Twitch. Its distribution network reaches over 90 million unique viewers and has a significant U.S. market inventory of over 1,000 channels, over 600 million subscribers and generated over 29 billion total video views in 2021. Omnia owns content brands that matter to fans who love gaming and pop culture including BCC Gaming, Arcade Cloud and Wisecrack. BCC Gaming is a leading Fortnite community channel. Arcade Cloud is a gaming channel featuring original animations. Wisecrack is a collective of comedians, academics, filmmakers, and artists. Omnia generates advertising revenue from its external talent network, its owned and operated content, as well as through direct brand sales through delivery of targeted advertisements on YouTube and other platforms that users click on, leading to direct engagement between users and advertisers.

Addicting Games has a portfolio of casual games for desktop and mobile devices. Advertising revenues generated from Inventory on Addicting Games' casual games is included in media and content revenue.

Media and Content (Continued)

For any publishing company, the key mission is to build a dedicated following of engaged visitors and brands that are looking for high levels of engagement within a target market to run successful advertising campaigns. Enthusiast Gaming has amassed a platform of engaged, lifestyle gamers that have become a leading advertising platform for brands targeting the gamer demographic. Enthusiast Gaming's web platform generates over two billion page views per quarter, and its video platform, operated by Omnia, generates approximately six billion video views per quarter. Each of these views produces Inventory available for sale. The majority of Enthusiast Gaming's media and content revenue is driven by programmatic advertising across the platform. Enthusiast Gaming has built out a direct sales team to foster key relationships and drive revenue. The direct sales team is also responsible for developing long term clients looking for integrated advertising solutions across Enthusiast Gaming's brands.

Programmatic Media Value Chain

The programmatic media value chain consists of various industry players seeking to facilitate optimal purchasing of advertising from targeted publishers. Importantly, both the supply side (websites or video properties with ad space) and the demand side (brands and/or advertisers seeking ad space) have their own respective options when it comes to platforms. Supply-side Platforms ("SSPs") and Display Side Platforms ("DSPs") have been created in order to streamline publishing and ad-buying processes. Companies strategically use both SSPs and DSPs to facilitate optimal purchasing of advertising from targeted publishers.

A common advertising spending metric utilized in the digital publishing industry, is known as "Cost Per Thousand" ("CPM") impressions.

CPM and other relevant metrics, allow SSPs and DSPs to navigate on a common basis whereby a more targeted marketing campaign will typically demand a higher CPM given that each ad impression can justifiably be worth more to the advertiser.

Should an advertiser or publisher decide to investigate one step deeper into the efficiency of its campaign, the metric of "Click Through Rate" serves as a percentage of people who saw the ad and subsequently clicked on it. Other methods of negotiating digital advertising and publishing transactions utilize "Cost Per Click", wherein the advertiser pays on a per-click basis, or alternatively can pay on a more joint venture / commission basis sometimes referred to as "Cost Per Acquisition".

Companies tend to utilize Effective Cost Per Thousand ("eCPM") impressions in order to compare various advertising mechanisms and campaigns on a leveled basis. Essentially, eCPM inputs the earnings obtained via a certain campaign, divided by the number of actual impressions delivered. This results in a cost per impression, such that when multiplied by 1,000, will deliver an approximation for the eCPM.

Sale of Inventory

The digital media advertising revenue stream of Enthusiast Gaming's business flows from the digital media publishing revenue stream. With content-rich digital media properties drawing billions of monthly page and video views, Enthusiast Gaming is able to sell valuable Inventory on its digital media properties. In addition to selling its own Inventory, Enthusiast Gaming acts as a representative for the sale of third-party Inventory on websites and video properties and applications that also host similarly themed content. By combining the Inventory in its own network with third-party Inventory, and in some instances, acting as an exclusive provider of advertising to third parties, Enthusiast Gaming gets access to exclusive ad auctions and sales opportunities through which it is able to command higher advertising revenues and negotiate favorable profit-sharing arrangements.

Online advertising revenue is determined by a number of metrics. Advertising revenues may factor in the number of individuals who view particular web pages or video properties in Enthusiast Gaming's network of digital media properties, how often the web pages or videos are viewed, and how much time a user spends on a website or video property during each visit. Revenue can be accorded based on the number of advertising impressions, the "Click-through Rate" ("CTR"), and the rate at which advertisements lead to sales. The functioning of the advertisements themselves can have a significant effect on achieving key advertising metrics.

Sale of Inventory (Continued)

Enthusiast Gaming developed proprietary optimization tools which it utilizes to sell ads. The optimization tool allows Enthusiast Gaming to set strategic parameters for the sale of Inventory in real time auctions that occur in milliseconds and are all executed by computer programs. Additionally, the programmatic optimization tools enable Enthusiast Gaming to target specific advertisers at specific times in order to receive the highest value for its Inventory.

The Inventory or advertising space can be found in a variety of locations throughout the websites and video properties. New advertising impressions are generally created when a user opens a website or navigates to a different page, or when they watch a video. They can take on the form of pre-roll video advertisements, banner advertisements, ad-words, “skins” or background advertisements, in-application ads, or other forms of ad units as may be applicable to the respective property.

Enthusiast Gaming derives part of its total revenue from direct advertising campaigns. When a client opts for a direct campaign, Enthusiast Gaming will prepare a marketing plan with the client, consisting of the length of the campaign and set parameters which will define how the ad will be displayed such as, specific countries where the ad will be displayed, on desktop or mobile, whether the ad will click through to another site, etc. Additionally, depending on the campaign, Enthusiast Gaming may guarantee a certain amount of impressions or CTR.

Enthusiast Gaming’s media and content revenue is primarily derived from the sales of ad inventory on its network of digital media properties. Enthusiast Gaming has steadily grown its network of digital media properties and has experienced a corresponding growth in revenue. Due to the steady growth, the fluctuation of spending in the advertising industry has not been obvious from Enthusiast Gaming’s operating results. Ad inventory derives its value from a number of factors, including supply and demand. In preparation for retail-oriented holidays, retail sector advertisers may increase their advertising budgets, thus reducing the availability of ad inventory and increasing its value. Similarly, advertisers in the technology industry may correlate their ad campaigns to the launch of new products.

Online advertisements can be sold in a variety of ways. Enthusiast Gaming enters into agreements with online advertising exchanges, through which advertisers will bid on space and time in Enthusiast Gaming Inventory and the Inventory of companies Enthusiast Gaming represents.

Under its affiliate agreements, Enthusiast Gaming provides advertising sales as a third-party representative, to digital media publishers. Generally, Enthusiast Gaming will receive the right to market and sell all available advertising space within the digital media publisher’s website or video property for the duration of the agreement. In exchange for the opportunity to monetize the digital media publisher’s property, Enthusiast Gaming will compensate the digital media publisher, either in the form of fixed monthly payments subject to page views, or a percentage of ad revenue, or a combination of the two.

The advertising technology space is ever evolving, but like most industries, the race tends to be toward optimal efficiency. Enthusiast Gaming therefore believes, as do many industry experts, that original content production, curation, and publishing will continue to thrive and generate more value given its importance to target consumers. Conversely, as better efficiency is pursued, middle-firms currently exacting fees in between advertisers and publishers, should see their revenues and margins decline. Large advertisers are interested in widely distributed publishers like Enthusiast Gaming, and firms in between will become more secondary.

Esports and Entertainment

The Company’s esports division, Luminosity Gaming, is a professional esports organization based in Toronto, Canada. It currently has fully-owned teams competing in Apex Legends, Rocket League, Splitgate, Rainbow Six Siege, PlayerUnknown’s Battlegrounds (“PUBG”), Call of Duty: Warzone, Super Smash Bros: Melee, Super Smash Bros: Ultimate. Luminosity Gaming’s teams compete globally and Luminosity positions itself as a significant contender at the highest level of competition in all games in which it fields teams. In addition to its competitive esports teams, Luminosity also has teams of content creators on YouTube, Twitch, and TikTok.

The Company holds a non-controlling interest in the Vancouver Titans of the Overwatch League and the Seattle Surge of the Call of Duty® esports league. Enthusiast Gaming assists in the management of the Vancouver Titans and the Seattle Surge.

Esports and Entertainment (Continued)

Enthusiast Gaming's enterprise is made up of interrelated operations intended to derive revenue from assets acquired by Enthusiast Gaming across the esports value chain. Enthusiast Gaming leverages its esports operations to build content and develop an audience and fan base to facilitate merchandising and subscriptions, pursuant to direct sponsorships, endorsement deals, product placement deals, advertising sales and advertising.

The branding of Enthusiast Gaming and Luminosity Gaming is particularly important to its marketing initiatives and its ability to gain traction in the industry and engage marketing partners such as sponsors. The outcome of any contest, competition, or tournament for the teams and players that Enthusiast Gaming intends to manage and provide services to may affect the ability for Enthusiast Gaming to strengthen its brand. Enthusiast Gaming believes its business depends on identifiable intangible properties such as brand names.

Esports entities that rely on marketing initiatives as a source of revenue will need to have a large following in order to enable marketing partners to generate revenue by leveraging this following. To that end, Enthusiast Gaming has retained a management team that has business acumen, sports and entertainment experience and industry connections. Enthusiast Gaming leverages its direct sales team to not only sell advertising inventory, but to also sell sponsorships for its esports assets.

The Company previously operated a B2C live event named "EGLX". In 2018, approximately 55,000 people attended two EGLX events and the Company continues to explore opportunities to grow its entertainment division to coincide with the significant growth of its platform online. Following the success of the two events in 2018, EGLX 2019 was brought back to the Metro Toronto Convention Centre with double the floor space. The 2019 EGLX event had in excess of 30,000 attendees and featured over 150 exhibitors, panels, cosplay, free play, the Artist Alley, an Indie Corner and a Family Zone.

As a response to the COVID-19 pandemic, in November 2020 the Company held a virtual version of EGLX, which was live streamed from November 10-13, 2020 on eglx.com and on Twitch at [twitch.tv/igloyal](https://www.twitch.tv/igloyal). Supported by key sponsors, including SpiderTech, G FUEL, and TikTok, the event featured world premieres, unique performances, and a number of gaming competitions. Featured talent and performances included: Muselk, NickEh30, Fresh, Anomaly, XQC, NFL superstars Richard Sherman and Darius Slay, and musicians ZHU and Goldlink.

The Company is exploring possible dates and locations for a future return of EGLX to a live event.

The Company's entertainment division is also the operator of over 25 video game networking events across 11 countries, including key markets such as the US and UK. The Company is an industry leader in B2B and consumer mobile gaming events. It owns and operates numerous successful networking events around the world with registered industry attendees and key sponsors and partners. As part of its B2B events, the Company hosts Pocket Gamer Party, Top 50 Developer Guide, Mobile Mixers, the Mobile Games Awards, and a feature event, Pocket Gamer Connects, the largest B2B mobile games conference series, with both virtual events and live events in locations such as London, San Francisco, Helsinki, and Seattle. In November 2021, the Company hosted two new digital conference series, being Pocket Gamer Connects Digital NEXT and Beyond Games, from November 15 – November 19, 2021. These two events focus on topics relevant to the gaming space including non-fungible tokens ("NFTs"), blockchain gaming, and the metaverse. In February 2022, the Company hosted its first major live event in nearly 2 years, Pocket Gamer Connects London, with approximately 1,900 registered attendees, from February 14-15, 2022. Subscription (Continued)

In June 2021, the Company acquired Tabwire, which offers monthly premium membership subscriptions to the Tabstats website as well as the Tabwire Twitch channel.

In August 2021, the Company acquired GameKnot, which offers monthly and yearly premium membership subscriptions to the GameKnot website.

In September 2021, the Company acquired Addicting Games, which offers premium membership subscriptions to certain Addicting Games properties including Addicting Games, Shockwave, TeachMe, TypeRacer, and Little Big Snake.

In November 2021, the Company acquired Outplayed, which offers membership subscriptions to the U.GG website.

In April 2022, the Company acquired FFS, which offers membership subscriptions to the FFS and LiveFPL websites.

The Company plans to continue to expand its subscription offerings across its networks of web and video properties.

GROWTH STRATEGIES

Enthusiast Gaming has a complementary organic and M&A growth strategy. M&A has been an important growth lever, having helped the Company grow and serve approximately 300 million monthly active viewers. The Company believes it has a clear path to further monetize the viewership base through multiple organic growth initiatives including: optimizing CPMs, increasing direct sales, growing subscribers, and deploying digital products to its audience (such as casual games).

Optimize CPMs

Enthusiast Gaming is focused on utilizing programmatic optimization tools to target specific viewers and delivering high value advertising. The Company built its adtech and programmatic optimization platform, through internally developed technology and third-party software. Enthusiast Gaming continues to enter into new SSPs relationships that contribute to increased sell through rates and revenue performance. The Company also invests in new adtech tools and expertise and expects to be able to achieve further revenue optimization on the Company's web platforms.

Increase Direct Sales

Selling high-impact advertising inventory directly to brands creates additional margin accretion as marketers are charged a higher price than traditional programmatic sales. Direct Selling specifically relates to contracting directly with brands to produce custom content and campaigns and is typically supplemented with paid media for customer activations. Direct sales included in revenue for Q3 2022 was \$10.1 million as compared to approximately \$6.8 million in Q3 2021. Enthusiast Gaming's direct sales efforts began in Q1 2020 and continue to see increased success with larger client activations. The Company now has advertising sales and fulfillment professionals in major city centers including New York, Los Angeles, Chicago, Detroit, Toronto, and London.

Grow Subscribers

The Company has more than tripled the number of paid subscribers for its properties from approximately 61,000 in March 2019 to approximately 260,000 in September 2022. In 2021, approximately 48,000 paid subscribers were added through the Mergers and Acquisitions of Vedatis, Tabwire, GameKnot, Addicting Games, and Outplayed. In 2022, approximately 26,000 paid subscribers were added through the Mergers and Acquisitions of FFS. Enthusiast Gaming continues to look for opportunities to grow existing subscription offerings, launch new subscription offerings, and is in the early stages of developing an Enthusiast Gaming platform wide subscription model available to web, video, and esports audiences of the Company.

NFL Tuesday Night Gaming

In September 2022, the Company partnered with the National Football League (the "NFL") to launch a first-of-its-kind gaming collaboration bringing together NFL players and Legends with top gaming content creators from marquee gaming organizations including Luminosity Gaming. This multi-year partnership resulted in the launch of NFL Tuesday Night Gaming ("NFL TNG"). NFL TNG debuted September 13, 2022, on YouTube in the United States and Canada, and airs Tuesdays during the 2022-2023 NFL regular season. The show consists of a rotating roster of NFL players and legends, competing with gaming creators across multiple game titles each week.

GROWTH STRATEGIES (Continued)

NFL Tuesday Night Gaming (Continued)

The first season will conclude with an All-Star Game coinciding with Super Bowl Week. Fans will choose their favorite NFL players or Legends and gaming content creators to compete in a special edition gaming night. The winning team will receive a cash prize to donate to the charity of their choice.

NFL TNG had approximately 1.9 million views across livestream and video content in Q3 2022.

In addition to the weekly live streamed gameplay, this partnership will also produce daily, always-on content throughout the season, including, pre-and post-game analysis, highlights, plays of the week, and more, leveraging the scale of the NFL and Enthusiast Gaming's network of gaming assets. For more information on NFL TNG, visit nfltuesdaynightgaming.com.

Content Licensing

The Company is pursuing opportunities to license its library of content and owned and operated brands to distributors. Enthusiast Gaming already has established partnerships with TikTok, and Snapchat, along with various OTT platforms.

Strategic Acquisitions

The Company's growth is enhanced by a targeted acquisition strategy. Enthusiast Gaming (including Enthusiast Properties) has successfully acquired or made significant investments in and integrated 24 companies. The Company continues to be disciplined in pursuing value-enhancing, highly-strategic acquisitions. A significant number of independent gaming web and video properties can benefit from Enthusiast Gaming's viewership base, data and analytics platform, and CPM optimization strategy. Management maintains regular dialogue with these entities resulting in a strong M&A pipeline of highly accretive targets.

Project GG

In June 2021, the Company announced its plans to launch a pan-Enthusiast social network and freemium subscription offering, codenamed *Project GG*. *Project GG* is envisioned as a cross-platform, gaming centric social network, uniting gaming and esports fans with a platform to connect, view stats (both personal and stats of other gamers), global rankings, and leaderboards, and share content through their unique gaming profiles, whether it be on desktop, mobile, or in-game.

Visual samples of the user interface from the development product are shown below:

The user interface of the desktop version of *Project GG*, displaying a user's content feed.

The user interface of the mobile version of *Project GG*, displaying a profile.

MARKET

Gaming Market

The robust global gaming market is rapidly expanding and represents one of the fastest growing segments within the broader media and entertainment ecosystem. Due to, among other things, increased engagement, technology adoption and shared experiences the global gaming market is expected to reach USD\$196.8 billion in 2022.² According to Newzoo, the industry is expected to grow to USD\$225.7 billion by 2025.² The proliferation of high-speed internet, accessible technology, and publishers using enhanced live operations and other tools have further accelerated the gaming market. Gaming has amassed a diverse audience who rely on the industry as a form of entertainment and social connection. Increasingly, younger generations are immersing themselves in gaming ecosystems and now choose gaming as their primary form of entertainment.

In 2022, there will be nearly 3.2 billion global gamers, who engage with interactive entertainment using PC, console, mobile device or cloud gaming service, according to Newzoo.² It is expected that gamers will surpass 3.5 billion by 2025.² Enhanced technology and high-fidelity content has allowed live concerts, movie screenings and birthday parties to take place within gaming ecosystems driving further engagement and excitement among young and old.

The industry is still in an early stage as developers and publishers continue to create new content, with better monetization and communication capabilities. Additionally, technology companies are fueling the rise of gaming by enhancing content through better platforms i.e., larger mobile phones, new consoles and cloud gaming, which allow gamers to play anytime, anywhere using any platform. As the industry continues to grow, dedicated fans are engaging with gaming related content even after they put their devices down. Video games have led to the rise of esports, streaming, dedicated news and fan sites as well as celebrities all of which accelerate the global excitement around gaming.

Digital Media

Over the past two decades, the proliferation of the internet and mobile devices has shifted the way consumers engage with media and content, amplifying the digital media industry. According to eMarketer, consumers in the U.S. spent an average of 181 minutes accessing digital media in 2010.³ In 2020, this figure increased to 470 minutes a day, representing 160% growth. Due to, among other things, the shift in media consumption from traditional to digital and increased time consumers are spending online, advertisers have adjusted the way in which they allocate their advertising budgets.⁴ According to eMarketer, USD\$90 billion was spent globally on digital advertising in 2012.⁵ This spend increased to USD\$378 billion in 2020, representing growth of 319%. Digital advertising is expected to grow to USD\$756 billion by 2024.⁶

Digital Media (Continued)

Specifically, with regards to gaming, digital media has become an increasingly important component of the industry. Gamers are now allocating significant time to gaming outside of playing their favorite titles, choosing to watch gaming video content, following esports teams and joining forums / blogs. According to Nielsen, 77% and 71% of Gen Z and Millennial gamers also consume Gaming Video Content, respectively.⁷ According to YouTube, viewers watched an approximately 50 billion hours of Gaming Video Content on its platform in 2018, doubling to approximately 100 billion in 2020.⁸ Additionally, the number of gaming-related tweets increased from approximately 218 million in 2017 to over 2 billion in 2020, according to Twitter.⁹ Gamers are spending time on gaming websites containing news, reviews, videos, blog posts, tips, chats, message boards, and other content. Furthermore, according to NewZoo, 9 in 10 Gen Alpha and Gen Z are game enthusiasts, among them 50% is willing to spend money on gaming, such as unlocking content, virtual goods, in-game currencies and gear.¹⁰

Viewers of Enthusiast Gaming's network of digital media properties are both men and women ages 13 to 65+ with the majority of its users spending, on average, more than 15+ hours gaming per week. These individuals represent a highly sought-after demographic in a number of key advertising categories.

Esports

Esports, or electronic sports, is the evolution of video gaming. "Esports" typically refers to competitive gaming whereby gamers can, individually or in teams, compete against one another. Spectators can typically observe these competitions via different platforms online or in person at live events. The advent of online platforms, such as Twitch, has allowed more and more spectators to watch competitions globally from anywhere in the world and has contributed to the growth in the popularity of esports. Competitive gamers can now participate in regulated leagues, tournaments or other competitions and matches, for various different games on different entertainment systems. Further, competitive gamers, teams, team managers, streamers, game developers, viewing platforms and other participants in the esports industry are able to monetize the attention through different means, including through viewer subscriptions and marketing sponsorships.

Esports is an important component of online video gaming content. Most notably, esports turns competitive video-gaming into a spectator sport. Thousands of viewers will attend live events to watch professional video game players compete in tournaments. Additionally, these tournaments are often streamed online, with viewers logging on to watch from their computers, tablets or mobile devices.

According to Newzoo, by the end of 2022, esports is set to generate nearly USD\$1.38 billion in revenues while the global esports audience is expected to reach 532 million.¹¹ According to NewZoo, esports is set to generate nearly USD\$1.86 billion in revenues while the global esports audience is expected to reach 640.8 million respectively by the end of 2025.¹¹

Date	Description
January 11, 2022	The Company announced the new season of “Rising Stars,” a competition series that searches for the next great content creators. This season, e.l.f. Cosmetics (NYSE: ELF) will co-create the series with Enthusiast Gaming, to discover the next gaming superstars from colleges across the United States and Canada.
January 17, 2022	The Company provided an update on its most recent acquisition, League of Legends’ fan community U.GG, which was completed in November 2021. Since the beginning of the new League of Legends season on January 7, 2022, U.GG achieved a peak high of 600,000 daily active users, with 1.1 million users visiting on the first weekend of the new season, from January 7 - January 9, 2022. In addition, U.GG’s recently launched desktop app has been downloaded over 300,000 times since its launch in November 2021.
January 31, 2022	The Company announced that its digital media property reached a record 51.8 million unique visitors in the United States in December 2021, based on recent digital media ratings from Comscore (Comscore Media Metrix®, Desktop 2+ Mobile 13+, December 2021, U.S.). Enthusiast Gaming is joined by Twitch and Roblox as the only gaming companies to rank as Top 100 Internet Properties in 2021 (Comscore Media Metrix®, Desktop 2+ Mobile 13+, December 2021, U.S.).
February 15, 2022	The Company announced the results of its latest custom study with Nielsen, to measure the total social reach and Twitch viewership of the Company’s Luminosity Gaming esports audience. The results of the latest custom Nielsen study for January 2022 show that Luminosity Gaming’s total social following is now over 145 million globally, having grown 13% since the last study in October 2021. In addition, the hours watched for Luminosity Gaming’s esports team on Twitch surpassed 32 million globally in January, an increase of 34% since the last study. The results mean that Luminosity Gaming has significantly increased its margin as the world’s most watched esports team on Twitch, with hours watched now 50% greater than the nearest esports competitor.
March 2, 2022	The Company announced a multi-year partnership with Hut 8 Mining Corp. (NASDAQ: HUT; TSX: HUT) (“Hut 8”), one of North America’s largest innovation-focused digital asset mining pioneers, supporting open and decentralized systems since 2018. The partnership marks the first time Hut 8 has come together with a gaming and esports organization, and Enthusiast Gaming’s first partnership with a digital asset miner. As ambitious leaders at the intersection of gaming and digital asset mining, Enthusiast Gaming and Hut 8 will collaborate on new experiences and content within mobile and blockchain gaming, Web 3.0, NFTs, and cryptocurrency. To kick off the partnership, Enthusiast Gaming will release a significant update to its first-person shooter game EV.IO, featuring Hut 8 as a presenting sponsor. Hut 8 will also become a sponsor of Luminosity Gaming, the top esports organization on Twitch with a social following of more than 145 million globally.
March 15, 2022	The Company announced a partnership with Fractal, an NFT marketplace co-founded by Justin Kan, co-founder of Twitch. The partnership marks Enthusiast Gaming’s first with an NFT marketplace, and will see NFTs integrated into one of the Company’s HTML5-based games for the first time.

Revenue for the three months ended September 30, 2022 and 2021, was \$50,578,758 and \$43,341,907, respectively. The table below provides a breakdown of the revenue for the indicated period:

Unaudited	Three Months Ended September 30, 2022	Three Months Ended September 30, 2021
	\$	\$
Media and content (a)	44,497,111	38,704,379
Esports and entertainment (b)	2,267,668	2,111,217
Subscriptions (c)	3,813,979	2,526,311
Total revenue	50,578,758	43,341,907

Notes:

- (a) Media and content revenue predominantly consists of advertising revenue on the Company's web, video, and casual gaming platforms, and content licensing revenue. Q3 2022 media and content revenue attributable to the video platform is \$28.8 million, which decreased \$1.4 million compared to \$30.2 million in Q3 2021. The decrease in media and content revenue for Q3 2022, relating to the video platform, is mainly attributable to a decrease in video views of 15% in Q3 2022 compared to Q3 2021, however, the revenue per thousand impressions ("RPM") for the video platform was 13% higher in Q3 2022 compared to Q3 2021 due to an increase in the percentage of views monetized, which offset the impact from the decrease in video views. Q3 2022 media and content revenue, excluding the video platform, is \$15.7 million, which increased \$7.2 million compared to \$8.5 million in Q3 2021. The increase in media and content revenue for Q3 2022, when excluding the video platform, is mainly due to an increase in direct sales attributable to the web platform in Q3 2022, an increase in web pageviews of 38%, and the Mergers and Acquisitions which contributed \$2.3 million to Q3 2022 media and content revenue. The increase in media and content revenue, excluding the video platform, was offset by a web RPM which was 12% lower in Q3 2022 compared to Q3 2021, due to a decrease in spending from DSPs in Q3 2022 compared to Q3 2021.

Summary of Financial and Operating Results (Continued)

For the Three Months Ended September 30, 2022 and 2021 (Continued)

(a) (Continued)

The increase in direct sales and the Mergers and Acquisitions are significant drivers for the increase in gross profit as a percent of total revenue from 23.3% in Q3 2021 to 32.7% in Q3 2022. Video views (see *Select Operating Metrics*) were 6.1 billion in Q3 2022, compared to 7.2 billion in Q3 2021. In Q2 2022 certain large partner channels left the video network, which the Company elected for in order to reduce operating costs relating to these channels. In Q3 2022, the impact of the easing of COVID-19 restrictions from Q3 2021 on video views was offset by the Company deploying new content to TikTok. Web pageviews (see *Select Operating Metrics*) were 3.6 billion in Q3 2022 compared to 2.6 billion in Q3 2021. The increase in web pageviews is mainly driven by the release of Elden Ring in February 2022 and the Mergers and Acquisitions.

(b) Esports revenue is generated through sponsorships, prize money, merchandise sales, and other esports related sources. Entertainment revenue mainly relates to PGC mobile gaming events which occur throughout each year. Entertainment revenue increased to \$1.5 million in Q3 2022 compared to \$0.8 million in Q3 2021, an increase of \$0.7 million. The increase in entertainment revenue is mainly attributable to PGC Toronto, which was an inaugural live event held from July 6-7, 2022, and PGC Helsinki, which was a live event held from September 27-28, 2022, whereas in Q3 2021, PGC Helsinki was a virtual event. Esports revenue decreased to \$0.8 million in Q3 2022 compared to \$1.4 million in Q3 2021, a decrease of \$0.6 million. The decrease in esports revenue is mainly attributable to a decrease in sponsorship revenue.

(c) Subscription revenue is generated from paid subscribers (see *Select Operating Metrics*) on the Company's web properties including TSR, Icy Veins, Tabstats, GameKnot, Addicting Games, Shockwave, TeachMe, TypeRacer, Little Big Snake, U.GG, and FFS. As of September 30, 2022, the Company has approximately 260,000 paid subscribers, compared to approximately 207,000 paid subscribers as of September 30, 2021. The increase in subscription revenue is primarily attributable to an increase in paid subscribers on TSR and Merger and Acquisitions. TSR had approximately 168,000 paid subscribers as of September 30, 2021, this number increased to approximately 190,000 paid subscribers as of September 30, 2022. TSR's subscribers pay on average approximately USD\$4 per month to access its VIP features. The cost of sales attributable to subscription revenue is nominal.

Operating expenses for the three months ended September 30, 2022 and 2021, were \$26,600,236 and \$21,354,332 respectively. The table below provides a breakdown of operating expenses for the indicated period:

Unaudited	Three Months Ended September 30, 2022	Three Months Ended September 30, 2021
	\$	\$
Professional fees (a)	766,057	434,862

Share-based compensation (j)	821,811	4,971,949
Amortization and depreciation (k)	4,055,415	2,372,839
Total operating expenses	26,600,236	21,354,332

Notes:

(a) Professional fees relate to corporate activities and are mainly comprised of legal, audit, tax and accounting fees. Professional fees increased \$0.3 million in Q3 2022 as compared to Q3 2021 due to increased corporate activity.

Summary of Financial and Operating Results (Continued)

For the Three Months Ended September 30, 2022 and 2021 *(Continued)*

- (b) Consulting fees include management consultants, investor relations services, and technology and data evaluation services. Consulting fees increased by \$0.6 million in Q3 2022 as compared to Q3 2021 largely due to additional consulting fees for technology development relating to the Mergers and Acquisitions.
- (c) Advertising and promotion expense relates to corporate marketing, brand marketing, and brand ambassadors. Advertising and promotion expense were relatively consistent in Q3 2022 as compared to Q3 2021.
- (d) Office and general costs increased by \$0.3 million in Q3 2022 as compared to Q2 2021 mainly due to the Mergers and Acquisitions. The Company maintains two offices in Toronto, Ontario, two offices in Los Angeles, California, and one office in Austin, Texas. Two of these offices were added in 2021 as part of the Mergers and Acquisitions. Occupancy costs are included in office and general.
- (e) Annual general meeting legal and advisory costs relate to non-recurring legal, advisory, and other expenses incurred in relation to the Company's contested 2022 AGM (see *Significant Announcements During and Subsequent to the First, Second and Third Quarters of 2022*).
- (f) The Company has a staff of approximately 220 employees as of September 30, 2022, compared to a staff of approximately 180 employees as of September 30, 2021. A significant portion of the increase in staffing levels is attributable to the hiring of content, sales, sales support employees, and the Mergers and Acquisitions. Furthermore, the increase was contributed to from the Company adding a number of senior level roles in 2021, including several EVP, SVP, and VP level positions. Salaries and wages also include commissions on direct sales. Increased direct sales contributed to the increase in salaries and wages as direct sales were \$10.1 million in Q3 2022 compared to \$6.8 million in Q3 2021.
- (g) Technology support, web development and content costs relate to Media and Content and Esports and Entertainment. Technology support, web development and content costs increased by \$2.9 million in Q3 2022 as compared to Q3 2021 due to an increase in content and design costs incurred on new and existing properties including NFL TNG and the integration of the Mergers and Acquisitions. Technology support, web development and content costs include \$2.0 million of expenses relating to NFL TNG in Q3 2022, as compared to \$Nil in Q3 2021.
- (h) Esports player, team, and game expenses primarily relate to Luminosity Gaming, including but not limited to player and influencer salaries, team housing, and team travel. Esports player, team and games expense decreased \$1.0 million in Q3 2022 compared to Q3 2021, mainly due to lower average player and influencer salaries in Q3 2022 compared to Q3 2022 despite headcount remaining relatively consistent. Additionally, channel partner bonuses have decreased in Q3 2022 due to less new channel partners with signing bonus being added in Q3 2022 compared to Q3 2021.
- (i) The Company and its subsidiaries commonly transact and carry assets and liabilities in currencies other than respective functional currencies. Foreign exchange gains or losses are caused by movements in exchange rates. Therefore, the Company expects continued gains and losses due to fluctuating exchange rates.
- (j) Share-based compensation is a non-cash expense which relates to options and restricted share units granted to directors, officers, employees, and consultants of the Company, which are expensed over their respective vesting periods. Share-based compensation expense decreased by \$4.2 million in Q3 2022 as compared to Q3 2021 largely due to forfeitures, but also driven by vesting periods, and black-scholes option pricing model inputs. In January 2021, the Company issued 743,671 options and 1,251,162 restricted share units. In April 2021, the Company issued 855,234 options and 1,242,577 restricted share units. In April 2022, the Company issued 1,560,697 options and 1,922,877 restricted share units.
- (k) Amortization and depreciation are significantly comprised of amortization of intangible assets arising from the Mergers and Acquisitions. Amortization and depreciation expense increased by \$1.7 million in Q3 2022 as compared to Q3 2021 mainly due to the amortization of intangible assets recognized upon the acquisitions of Vedatis and Tabwire in Q2 2021, GameKnot and Addicting Games in Q3 2021, Outplayed in Q4 2021, and FFS in Q2 2022.

Subscriptions (c)	10,691,119	6,389,057
Total revenue	148,865,324	110,421,843

Notes:

- (a) Media and content revenue predominantly consists of advertising revenue on the Company's web, video and casual gaming platforms, and content licensing revenue. For the nine months ended September 30, 2022, media and content revenue attributable to the video platform is \$82.3 million, which increased \$5.3 million compared to \$77.0 million for the nine months ended September 30, 2021. The increase in media and content revenue for the nine months ended September 30, 2022, relating to the video platform, is mainly attributable to an RPM which was 20% higher in the nine months ended September 30, 2022, compared to September 30, 2021. For the nine months ended September 30, 2022, media and content revenue, excluding the video platform, is \$49.5 million, which increased \$27.4 million compared to \$22.1 million for the nine months ended September 30, 2021. The increase in media and content revenue for the nine months ended September 30, 2022, when excluding the video platform, is mainly due to an increase in direct sales attributable to the web platform in the nine months ended September 30, 2022, compared to September 30, 2021, a web RPM which was 23% higher in the nine months ended September 30, 2022, compared to September 30, 2021, and the Mergers and Acquisitions contributed \$9.7 million to media and content revenue in the nine months ended September 30, 2022. The web RPM for the nine months ended September 30, 2021 was noticeably lower which the Company attributes to the COVID-19 pandemic and the effects of the prices of digital advertisements, which have recovered in subsequent periods.

Summary of Financial and Operating Results (Continued)

For the Nine Months Ended September 30, 2022 and 2021 *(Continued)*

(a) (Continued)

The increase in direct sales and the Mergers and Acquisitions are the main drivers for the increase in gross profit as a percent of total revenue from 21.8% for the nine months ended September 30, 2021 to 30.5% for the nine months ended September 30, 2022. Video views (see *Select Operating Metrics*) were 19.2 billion in the nine months ended September 30, 2022, compared to 22.4 billion in the nine months ended September 30, 2021, the decrease in video views offset the higher RPM on the video platform. Video views for the nine months ended September 30, 2021, were noticeably higher which the Company attributes to the COVID-19 pandemic and the related stay-at-home orders being enacted by governments worldwide, combined with the closing of schools in most jurisdictions. In addition, in the nine months ended September 30, 2022, certain large partner channels left the video network, which the Company elected for to reduce operating costs relating to these channels. Web pageviews (see *Select Operating Metrics*) were 11.8 billion in the nine months ended September 30, 2022 compared to 7.7 billion in the nine months ended September 30, 2021, the increase is mainly driven by the release of Elden Ring in February 2022 and the Mergers and Acquisitions.

(b) Esports revenue is generated through the provision of management services to other esports entities, sponsorships, prize money, merchandise sales, and other esports related sources. Entertainment revenue mainly relates to Pocket Gamer Connects mobile gaming events which occur throughout each year. The increase in esports and entertainment revenue was caused by entertainment revenue increasing from \$1.4 million for the nine months ended September 30, 2021 to \$3.6 million for the nine months ended September 30, 2022, an increase of \$2.2 million. This increase in entertainment revenue is mainly attributable to PGC London, Seattle, and Helsinki, the latter two of which were live events in 2022 compared to virtual events in 2021, and the debut of PGC Toronto, held in July 2022. Live events result in significantly more revenue and cost of sales compared to virtual events. Esports revenue decreased to \$2.8 million in nine months ended September 30, 2022 compared to \$3.4 million in the nine months ended September 30, 2021, a decrease of \$0.6 million. This decrease in esports revenue is primarily driven by the termination of the CSE management agreement on April 1, 2021.

(c) Subscription revenue is generated from paid subscribers (see *Select Operating Metrics*) on the Company's web properties TSR, Icy Veins, Tabstats, GameKnot, Addicting Games, Shockwave, TeachMe, TypeRacer, Little Big Snake, U.GG and FFS. As of September 30, 2022, the Company has approximately 260,000 paid subscribers, compared to approximately 207,000 as of September 30, 2021. The increase in subscription revenue is primarily attributable to an increase in paid subscribers on TSR and the Merger and Acquisitions. TSR had approximately 168,000 paid subscribers as at September 30, 2021, this number increased to approximately 190,000 paid subscribers as at September 30, 2022. TSR's subscribers pay on average approximately USD\$4 per month to access its VIP features. The cost of sales attributable to subscription revenue is nominal.

Notes:

- (a) Professional fees relate to corporate activities and are mainly comprised of legal, audit, tax and accounting fees. There was no significant change in professional fees in the nine months ended September 30, 2022, compared to the nine months ended September 30, 2021.
- (b) Consulting fees include management consultants, investor relations services, and technology and data evaluation services, as well as fees pursuant to the Master Services Agreement with the Vancouver Arena Limited Partnership (see *Related Party Transactions*). Consulting fees increased by \$1.5 million in the nine months ended September 30, 2022 as compared to the nine months ended September 30, 2021 mainly due to additional consulting fees for technology development, relating to the Mergers and Acquisition, and fees incurred relating to the settlement of the deferred payment liability with Addicting Games and Outplayed. This increase was offset by the termination of the Master Services Agreement with Vancouver Arena Limited Partnership on April 1, 2021.
- (c) Advertising and promotion expense relates to corporate marketing, brand marketing, and brand ambassadors. Advertising and promotion expense decreased by \$1.0 million in the nine months ended September 30, 2022, as compared to the nine months ended September 30, 2021, due to a decrease in corporate and brand marketing initiatives in the nine months ended September 30, 2022, as compared to the nine months ended September 30, 2021.
- (d) Office and general costs increased by \$2.4 million in the nine months ended September 30, 2022, as compared to the nine months ended September 30, 2021, mainly due to substantial increases in insurance expense relating to the listing of the Company's common shares on the Nasdaq in April 2021 and the Mergers and Acquisitions. The Company also incurred listing and sustaining fees as a result of the Nasdaq listing which are recognized into office and general costs. These expenses commenced in April 2021 and are expected to continue to be incurred. The Company maintains two offices in Toronto, Ontario, two offices in Los Angeles, California, and one office in Austin, Texas. Two of these offices were added in 2021 as part of the Mergers and Acquisitions. Occupancy costs are included in office and general.
- (e) Annual general meeting legal and advisory costs relate to non-recurring legal, advisory, and other expenses incurred in relation to the Company's contested 2022 AGM (see *Significant Announcements During and Subsequent to the First, Second and Third Quarters of 2022*).

- (f) The Company has a staff of approximately 220 employees as of September 30, 2022, compared to a staff of approximately 180 employees as of September 30, 2021. A significant portion of the increase in staffing levels is attributable to the hiring of content, sales, sales support employees, the commencement of Project GG in Q2 2021, and the Mergers and Acquisitions. Furthermore, the increase was contributed to from the Company adding a number of senior level roles in 2021, including several EVP, SVP, and VP level positions. Salaries and wages also include commissions on direct sales. Increased direct sales contributed to the increase in salaries and wages as direct sales were \$24.6 million in the nine months ended September 30, 2022, compared to \$13.4 million in the nine months ended September 30, 2021.
- (g) Technology support, web development and content costs relate to Media and Content and Esports and Entertainment. Technology support, web development and content costs increased by \$6.1 million in the nine months ended September 30, 2022, as compared to the nine months ended September 30, 2021, due to an increase in content and design costs incurred on new and existing properties such as NFL TNG and increase in technology costs mainly due to the integration of the Mergers and Acquisitions, and increased business activity. Technology support, web development and content costs include \$2.0 million of expenses relating to NFL TNG for the nine months ended September 30, 2022, as compared to \$Nil for September 30, 2021.
- (h) Esports player, team and game expenses relate to primarily to Luminosity Gaming, including but not limited to player and influencer salaries, team housing, and team travel. There was a decrease of \$1.0 million in game expenses in the nine months ended September 30, 2022, compared to the nine months ended September 30, 2021, mainly due to lower average salary for players while maintaining a relatively consistent headcount. Additionally, channel partner bonuses have decreased in the nine months ended September 30, 2022 due to less new channel partners with signing bonus being added in the nine months ended September 30, 2022 compared to September 30, 2021.

Web pageviews relate historically to Enthusiast Properties. The Company seeks to grow existing properties, create or acquire new properties, and add new partner properties to the web platform. The web pageviews remained relatively consistent from Q4 2020 to Q3 2021. Web pageviews began to rise again in Q4 2021 and increased 44% in Q1 2022 compared to Q4 2021. Management attributes this increase to organic growth in traffic driven by content related to new game releases on both owned-and-operated and represented web properties, such as the Elden Ring game released in February 2022, as well as launch of desktop app for Outplayed. Web pageviews decreased 11.6% in Q3 2022 compared to Q2 2022, which management attributes to a decrease in traffic relating to the Elden Ring game following its initial surge upon launch.

Video views relate historically to Omnia which was acquired in Q3 2020. The video views remained relatively stable from Q4 2020 to Q1 2021. The video views increased to 7.9 billion in Q2 2021, due to increased traffic to the Company's Arcade Cloud video properties, a number of new Snapchat channels being launched by the Company in Q2 2021 (including *Livestream Fails* and *Blox Buddies*), and from additional partner channels being added to the Company's video platform in Q1 and Q2 2021. The video views decreased to 7.2 billion in Q3 2021, which the Company attributed to students returning back to school in Q3 2021. The video views decreased to 6.7 billion in Q4 2021, which the Company attributes to the Company shifting to video properties with a higher yield and the lingering effect of students returning to school and the continued easing of COVID-19 pandemic restrictions. The video views increased to 7.1 billion in Q1 2022 which the Company attributes to higher viewership on the video network and the Company deploying new content on TikTok. The video views decreased to 5.9 billion in Q2 2022, or 16.0% decrease from Q1 2022. This decrease specifically relates to certain large partner channels leaving the video network, which the Company elected for in order to reduce operating costs relating to these channels. Management also attributes the decrease to the reduction in the gaming category views across YouTube primarily driven from relaxed COVID-19 restrictions. The video views increased to 6.1 billion in Q3 2022, or 2.3% increase from Q2 2022, primarily driven from new content on TikTok in Q3 2022 and launch of NFL TNG in September 2022.

Paid subscribers relate primarily to TSR. TSR was acquired by Enthusiast Properties in Q1 2019. In Q4 2019 the Company began initiatives to increase the numbers of paid subscribers, including pricing analysis, promotional events, and marketing initiatives. In Q3 and Q4 2020 the Company established a team of employees focused exclusively on subscription efforts, and the Company attributes the additional increase in the number of paid subscribers observed in the table above primarily to these initiatives as well as the Mergers and Acquisitions. Across 2021 and 2022, approximately 74,000 paid subscribers were added from the Mergers and Acquisitions, with the remaining subscription growth being organic.

The Company has been expanding its operations since the acquisition of Omnia in Q3 2020, which is the primary driver of the increase in total revenue and operating expenses from Q4 2020 through Q3 2022. The Mergers and Acquisitions contributed to the increase in total revenue and operating expenses observed in Q2 2021 through Q3 2022. In Q3 2022, the Company recognized a goodwill impairment charge on the Omnia cash-generating unit (“CGU”) and Addicting Games CGU which caused a significant increase in net loss and comprehensive loss observed in Q3 2022, see *Goodwill Impairment*.

For the closing dates of the Mergers and Acquisitions, see *Description of Enthusiast Gaming Holdings*.

Period-to-period results are also impacted by certain operating metrics (see *Select Operating Metrics*) and seasonality (see *Seasonality*).

SEASONALITY

The Company’s media and content division is impacted by seasonality which is linked to advertiser spend and consumer events. Advertising seasonality is driven by two main factors, RPM and traffic, which are interlinked factors that are tied to seasonal periods of time throughout the year. These seasonal periods of time are linked to cultural holidays, commercial holidays, or ad hoc events (e.g., election years).

Advertiser spend is impacted by their annual budgets, financial year-end date, cultural holidays, commercial holidays, ad hoc events, new brands, new campaigns and new products. Advertiser spend normally increases significantly for consumer spending events such as Black Friday, Christmas, Back to School, Valentine’s Day, and Easter which result in a corresponding increase in RPM. Advertiser spend increases substantially in Q4 as Black Friday and the December holiday season approaches. Advertiser spend can differ from consumer spend as consumers have different spending patterns and important events.

Q1 is typically the slowest part of the year historically, as most media spending occurs in Q4. As a result, Q1 normally reports the lowest media and content revenue and Q4 the highest media and content revenue. Q2 and Q3 media and content revenue varies depending on an advertiser’s financial year end, budgeted advertiser spends remaining and new brands, campaigns, and products being promoted.

Due to seasonality, the results of operations for any quarter are not necessarily indicative of the results of operations for the fiscal year.

Management Discussion and Analysis

For the Three and Nine Months Ended September 30, 2022

GOODWILL IMPAIRMENT

The Company performs its annual impairment tests at December 31 or at an interim date when events or changes in the business environment (triggering events) would more likely than not reduce the fair value of a CGU below its carrying value. During the nine months ended September 30, 2022, the Company concluded that there were triggering events requiring an impairment assessment due to overall macroeconomic conditions including but not limited to increasing interest rates, high inflation, and softening of digital advertisement demand and spending due to uncertain market economic outlook. In addition, during the three months ended September 30, 2022, there was a decline in the Company's share price resulting in market capital being lower than the net assets of the Company as of September 30, 2022. As a result, the Company performed impairment testing as of September 30, 2022, and determined that impairment charges were necessary for the Omnia CGU of \$14,082,162 (December 31, 2021 - \$Nil) and the Addicting Games CGU of \$17,199,124 (December 31, 2021 - \$Nil) due to overall macroeconomic conditions. The Company's analysis showed the value of Enthusiast Properties, TSR, Luminosity, Steel Media and Outplayed CGUs exceeds their carrying amount, ranging between 22% to 335% of recoverable amount compared to the carrying amount of the net assets. For key assumptions used to determine the recoverable amount of goodwill based on each CGU's value-in-use refer to Note 10 of the Company's condensed consolidated interim financial statements for the three and nine months ended September 30, 2022 and 2021.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Cash flow for the Nine Months Ended September 30, 2022

Net cash used in operating activities for the nine months ended September 30, 2022, was \$19,504,360 (September 30, 2021 – \$20,241,241). This was due to the net loss of \$65,007,376 and was decreased by items not affecting cash such as goodwill impairment of \$31,281,286, amortization and depreciation of \$13,257,813, share-based compensation of \$5,336,617, interest and accretion of \$2,266,161, a loss on settlement of deferred payment liability of \$3,302,824, and loss on derecognition of long-term debt of \$482,282, and increased by items not affecting cash such as deferred tax recovery of \$1,902,714, foreign exchange gain of \$1,416,264, a gain on player buyouts of \$505,197, a gain on revaluation of deferred payment liability \$539,555, share of income from investment in associates and joint ventures \$1,001,002, gain on settlement of accounts payable of \$587,769, and gain on sale of intangible assets of \$4,876,659. These non-cash items for the nine months ended September 30, 2022 were offset by changes in working capital including an increase in trade and other receivables of \$2,476,193, an increase in prepaid expenses of \$645,919, an increase in accounts payable and accrued liabilities of \$2,479,331, and an increase in contract liabilities of \$559,566. For the nine months ended September 30, 2021, net cash used in operating activities was significantly attributable to the net loss of \$38,707,191 which was decreased by items not affecting cash such as amortization and depreciation of \$5,668,276, share-based compensation of \$14,690,294, interest and accretion of \$606,060, a loss on settlement of vendor-take-back loan of \$316,241, loss on revaluation of deferred payment liability of \$122,346, shares for services of \$110,565, change in fair value of investment of \$444,764, and share of loss from investment in associates and joint ventures of \$230,675, and increased by items not affecting cash such as deferred tax recovery of \$255,273, and foreign exchange gain of \$101,302. These non-cash items for the nine months ended September 30, 2021, were collectively offset by changes in working capital including an increase in trade and other receivables of \$3,896,016, an increase in prepaid expenses of \$2,584,504, an increase in accounts payable and accrued liabilities of \$2,383,538, and an increase in contract liabilities of \$881,756.

Net cash provided by financing activities for the nine months ended September 30, 2022, was \$7,610,764 (September 30, 2021 – \$76,167,144). This was predominantly attributable to proceeds from the long-term debt, net of transaction costs of \$13,621,717, offset by repayment of long-term debt of \$5,362,673, and lease payments of \$705,075. For the nine months ended September 30, 2021, net cash provided by financing activities was significantly attributable to proceeds from the issuance of shares for offerings, net of transaction costs, of \$95,150,810, proceeds from the exercise of options of \$784,431, proceeds from long-term debt, net of transaction costs, of \$944,787, which were collectively offset by repayment of long-term debt of \$14,023,470, repayment of vendor-take-back loan of \$6,158,329, and lease payments of \$531,085.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES (Continued)

Liquidity (Continued)

The Company has not yet realized profitable operations and has mainly relied on non-operational sources of financing to fund operations. Management has been able to raise sufficient funds to finance the Company's operations, growth, and mergers and acquisitions in the past and may need to continue to do so to fund these activities in the future.

As of September 30, 2022, the Company has current assets of \$56,674,377 (December 31, 2021 - \$59,266,075) and current liabilities of \$44,664,099 (December 31, 2021 - \$68,447,986) resulting in a working capital of \$12,010,278 (December 31, 2021 – working capital deficiency of \$9,181,911).

As of September 30, 2022, the Company's working capital of \$12,010,278 includes contract liabilities of \$4,797,857 and the current portion of deferred payment liability of \$2,172,633, of which \$1,448,422 can be settled through issuance of common shares at Company's option. The working capital will be used to finance operations, growth, and mergers and acquisitions over the next 12 months. The Company also has other cash commitments of \$733,000 (see *Commitments*) over the next 12 months. After considering these items, Management believes that the existing working capital is sufficient to meet the Company's requirements over the next 12 months. To the extent that further working capital is required in the next 12 months, the Company has an operating credit consisting of an authorized amount of up to \$5 million available to draw upon. As of September 30, 2022, the balance on this operating credit is \$Nil. For a detail on the operating credit see Note 13 of the condensed consolidated interim financial statements for the nine months ended September 30, 2022. The Company has not identified any legal or practical restrictions on its ability to meet its obligations.

Capital Management

The Company considers its capital structure to consist of shareholders' equity, long-term debt, and deferred payment liability. The Company manages its capital structure and makes adjustments to it in order to have the funds available to support the acquisition and development of its business. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company is dependent on external equity financing to fund its activities. In order to carry out the planned operations and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the nine months ended September 30, 2022. Neither the Company nor its subsidiaries are subject to externally imposed capital requirements aside from the covenants described in Note 13 of the condensed consolidated interim financial statements for the nine months ended September 30, 2022.

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern. The Company's ability to raise future capital is subject to uncertainty and the inability to raise such capital may have an adverse impact over the Company's ability to continue as a going concern.

Refer to *Significant Announcements During and Subsequent to the First, Second and Thirds Quarters of 2022* for a Notice received from the Nasdaq that the Company is not currently in compliance with the USD\$1.00 minimum bid price requirement for continued listing of the Company's common shares on the Nasdaq Global Select Market and the Company's planned course of action regarding the Notice.

As of September 30, 2022, a balance of \$7,063 (December 31, 2021 - \$7,063) is included in account payable and accrued liabilities.

During the nine months ended September 30, 2022, the Company recognized consulting expense of \$Nil (September 30, 2021 - \$74,253) to Franchise Agency LLC, an agency which represents a director of the Company. As of September 30, 2022, a balance of \$Nil (December 31, 2021 - \$55,654) is included in account payable and accrued liabilities.

During the nine months ended September 30, 2022 the Company recognized \$396,088 (September 30, 2021 - \$300,624) in consulting fees relating to Board of Director and committee fees to certain directors. As of September 30, 2022, a balance of \$381,930 (December 31, 2021 - \$265,698) is included in account payable and accrued liabilities.

As of September 30, 2022, a balance of \$67,184 (December 31, 2021 - \$56,503) is included in trade and other receivables from AFK, a related party by nature of it having common management as the Company, refer to Note 7 of the condensed consolidated interim financial statements for the three and nine months ended September 30, 2022.

As of September 30, 2022, the Company has loans receivable due from the former President and Chief Corporate Officer of \$Nil (December 31, 2021 - \$80,297) and \$Nil (December 31, 2021 - \$45,698) respectively. The loans receivable were non-interest bearing and due on demand.

See Note 7 of the condensed consolidated interim financial statements for the three and nine months ended September 30, 2022 for information relating to an investment in associates controlled by a former related party. The investment in associates are no longer a related party as of July 19, 2022. During the period from January 1, 2021 to July 19, 2022, the Company's share of net income from investment in associates is \$1,160,223 (September 30, 2021 - net loss of \$205,405).

ADOPTION OF NEW OR AMENDED IFRS ACCOUNTING STANDARDS

No new IFRS accounting standards, interpretations or amendments were adopted during the nine months ended September 30, 2022.

SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated interim financial statements and notes to the condensed consolidated interim financial statements. These estimates are based on management's best knowledge of current events and actions the Company may undertake in the future. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognized in the period in which the estimates are revised. Significant areas requiring the Company to make estimates include goodwill impairment testing and recoverability of assets, identification and valuation of intangible assets acquired in business combinations, estimated useful life of long-lived assets, income taxes, the fair value of share-based payments, provisions for expected credit losses, fair value measurement of an investment not quoted in an active market and recognition of revenue on a gross versus net basis. These estimates and judgments are further discussed below:

(a) *Goodwill impairment testing and recoverability of assets*

In evaluating impairment, the Company determines the recoverable amount based on an assessment of value-in-use using a discounted cash flow approach. In determining the estimated recoverable amount, the Company's significant assumptions include expected future cash flows, terminal growth rates and discount rates. The approach uses cash flow projections based upon a financial forecast approved by management, covering a five-year period. Cash flows for the years thereafter are extrapolated using the estimated terminal growth rate. The risk premiums expected by market participants related to uncertainties about the industry and assumptions relating to future cash flows may differ or change quickly, depending on economic conditions and other events.

(b) *Identification and valuation of intangible assets acquired in business combinations*

In a business combination, all identifiable assets, liabilities and contingent liabilities acquired are recorded at their fair values. One of the most significant estimates relates to the determination of the fair value of intangible assets. For any intangible asset identified, depending on the type of intangible asset and the complexity of determining its fair value, management with assistance from an independent valuation expert develops the fair value using appropriate valuation techniques which are based on a forecast of the total expected future net cash flows. In determining the fair value of the intangible assets at the acquisition date, the Company's significant assumptions include the future net cash flows, royalty rates, attrition rates and in the discount rate applied.

Certain fair values may be estimated at the acquisition date pending confirmation or completion of the valuation process. Where provisional values are used in accounting for a business combination, they may be adjusted retrospectively in subsequent periods. However, the measurement period will last for one year from the acquisition date.

SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

(c) Estimated useful lives of long-lived assets

Management reviews the useful lives of depreciable assets at each reporting date. Management assesses that the useful lives represent the expected utilization in terms of duration of the assets to the Company. Actual utilization, however, may vary due to technical obsolescence, particularly relating to website content and application and technology development.

(d) Income taxes

At the end of each reporting period, the Company assesses whether the realization of deferred tax benefits is sufficiently probable to recognize deferred tax assets. This assessment requires the exercise of judgment on the part of management with respect to, among other things, benefits that could be realized from available income tax strategies and future taxable income, as well as other positive and negative factors. The recorded amount of total deferred tax assets could be reduced if estimates of projected future taxable income and benefits from available income tax strategies are lowered, or if changes in current income tax regulations are enacted that impose restrictions on the timing or extent of the Company's ability to utilize deferred tax benefits.

The Company's effective income tax rate can vary significantly quarter-to-quarter for various reasons, including the mix and volume of business in lower income tax jurisdictions and in jurisdictions for which no deferred income tax assets have been recognized because management believed it was not probable that future taxable profit would be available against which income tax losses and deductible temporary differences could be utilized. The Company's effective income tax rate can also vary due to the impact of foreign exchange fluctuations.

(e) Share-based payments

The fair value of all share-based payments granted are determined using the Black-Scholes option pricing model which incorporates assumptions regarding risk-free interest rates, dividend yield, expected volatility, estimated forfeitures, and the expected life of options. The Company has a significant number of options outstanding and expects to continue to make option grants.

(f) Provision for expected credit losses ("ECLs")

The Company performs impairment testing annually for trade receivables in accordance with IFRS 9. The ECL model requires considerable judgment, including consideration of how changes in economic factors affect ECLs, which are determined on a probability-weighted basis. IFRS 9 outlines a three-stage approach to recognizing ECLs which is intended to reflect the increase in credit risks of a financial instrument based on i) 12-month expected credit losses, or ii) lifetime expected credit losses. The Company measures provision for ECLs at an amount equal to lifetime ECLs.

The Company applies the simplified approach to determine ECLs on trade receivables by using a provision matrix based on historical credit loss experiences. The historical results are used to calculate the run rates of default which are then applied over the expected life of the trade receivables, adjusted for forward looking estimates.

(g) Recognition of revenue on a gross versus net basis

The Company follows the guidance provided in IFRS 15, *Revenue from Contracts with Customers*, for determining whether the Company is the principal or an agent in arrangements with customers that involve another party that contributes to providing a specified service to a customer. In these instances, the Company determines whether it controls the promised specified service itself (as principal) or arranges for the specified service to be provided by another party (as an agent). This determination depends on the facts and circumstances of each arrangement and, in some instances, involves significant judgment.

ACCOUNTING STANDARDS AND AMENDMENTS ISSUED BUT NOT YET APPLIED

The Company is not aware of any proposed accounting standards or amendments that would have a significant effect on the consolidated financial statements.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Fair values

The fair values of cash, investments, trade and other receivables, loans receivable, accounts payable and accrued liabilities and contract liabilities approximate their carrying values due to the relatively short-term nature of these financial instruments. The fair value of long-term debt, lease contract liabilities, deferred payment liability and other long-term debt loan is based on observable market data and the calculation of discounted cash flows. Discount rates were determined based on current terms and conditions observed in the credit market.

The Company follows a three-tier categorization for its financial instruments as a framework for disclosing fair value based upon inputs used to value the Company's investments. The hierarchy is summarized as:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets and liabilities
- Level 2 – inputs that are observable for the asset or liability, either directly (prices) or indirectly (derived from prices) from observable market data
- Level 3 – inputs for assets and liabilities not based upon observable market data

As of September 30, 2022, the Vedatis Earn-Out Payment liability is classified as a Level 3 financial instrument (see Note 15 of the condensed consolidated interim financial statements for the three and nine months ended September 30, 2022).

Total interest income and interest expense for the three and nine months ended September 30, 2022, and 2021 for financial assets or financial liabilities that are not at fair value through profit or loss can be summarized as follows:

(Unaudited)	For the three months ended		For the nine months ended	
	September 30, 2022	September 30, 2021	September 30, 2022	September 30, 2021
	\$	\$	\$	\$
Interest income	(5,257)	(9,315)	(7,978)	(50,546)
Interest and accretion expense	414,203	430,538	2,963,981	1,702,839
Net interest expense	408,946	421,223	2,956,003	1,652,293

The Company examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include credit risk, liquidity risk, foreign currency risk and interest rate risk.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its obligations.

The Company's maximum exposure to credit risk for its trade receivables is summarized as follows:

	September 30, 2022	December 31, 2021
	(Unaudited)	(Audited)
	\$	\$
Trade receivables aging:		
0-30 days	24,582,051	26,263,555

Credit risk (Continued)

The movement in the expected credit loss provision can be reconciled as follows:

	September 30, 2022	December 31, 2021
	(Unaudited)	(Audited)
	\$	\$
Expected credit loss provision:		
Expected credit loss provision, beginning balance	(58,472)	(67,466)
Recoveries	-	8,504
Effect of movement in exchange rates	(709)	490
Expected credit loss provision, ending balance	(59,181)	(58,472)

The following default rates, determined based on historical default rates based on the aging of trade receivables, are used to calculate the expected credit loss provision on trade receivables as of September 30, 2022:

(Unaudited)	Total	Not past due	Over 30 days past due	Over 60 days past due	Over 90 days past due
Default rates		0.05%	0.32%	0.82%	1.04%
Trade receivables	30,149,227	24,582,051	1,247,477	1,478,140	2,841,559
Expected credit loss provision	59,181	13,300	4,054	12,137	29,690

All of the Company's cash is held with major financial institutions and thus the exposure to credit risk is considered insignificant. Management actively monitors the Company's exposure to credit risk under its financial instruments.

Concentration risk

The Company has one customer which makes up more than 10% of revenue. This customer accounts for approximately 31.52% (December 31, 2021 – 46.58%) of trade receivables as of September 30, 2022, 55.93% (September 30, 2021 – 67.24%) of revenues for the three months ended September 30, 2022 and 56.20% (September 30, 2021 – 70.91%) of revenues for the nine months ended September 30, 2022.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with financial liabilities. The Company has a planning and budgeting process in place by which it anticipates and determines the funds required to support its normal operating requirements.

The Company holds sufficient cash and working capital which is maintained through stringent cash flow management to ensure sufficient liquidity is maintained. The table below summarizes the Company's contractual obligations into relevant maturity groups at the statement of financial position date based on the expected contractual maturity date. The amounts disclosed in the table are the contractual undiscounted payments.

(Unaudited)	Less than one year	One to two years	Two to three years	More than three years	Total

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Continued)

Liquidity Risk (Continued)

Notes:

- (1) The Company has, at its option, the ability to settle \$1,509,800 of the deferred payment liability amounts due in less than one year either in cash or common shares. The Company has, at its option, the ability to settle the deferred payment liability amounts due in more than three years half in cash and half in common shares.

Foreign currency risk

A large portion of the Company's transactions occur in foreign currencies (including US dollars, UK pound sterling, and Euro) and, therefore, the Company is exposed to foreign currency risk at the end of the reporting period through its US dollars, UK pound sterling, and Euro denominated trade and other receivables, accounts payable and accrued liabilities, deferred payment liability and cash. As of September 30, 2022, a 10% depreciation or appreciation of the US dollar, UK pound sterling, and Euro against the Canadian dollar would have resulted in an approximate \$436,000, \$238,000 and \$83,000 decrease or increase, respectively, in total net loss and comprehensive loss.

Interest rate risk

The Company's long-term debt bears interest at Banker's Acceptance fee equal to CDOR rate plus 7.5%. Fluctuations in the Banker's Acceptance fee equal to CDOR rate will result in changes to the months interest expense. A change in the annual interest rate of 0.50% would approximately result in a \$84,000 change in the annual interest expense.

COMMITMENTS

In addition to the financial liabilities summarized above, as of September 30, 2022, the Company has the following payment commitments with respect to consulting and other contractual obligations:

(Unaudited)	\$
Not later than one year	733,000
Later than one year and not later than five years	860,000
Total	1,593,000

Further, the Company is subject to capital commitments pursuant to its investments in AIG Canada and AIG USA, see Note 7 of the condensed consolidated interim financial statements for the three and nine months ended September 30, 2022, as well as Surge eSports LLC which is being established under a similar structure. If the Company fails to make any capital contributions, as required, it may be subject to certain actions including the loss of rights or a reduction in equity ownership in order to satisfy the capital contribution requirements.

CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Management is responsible for the design and effectiveness of disclosure controls and procedures to provide reasonable assurance that material information related to the Company, including its consolidated subsidiaries, which is required to be disclosed by the Company in its filings or required to be submitted by the Company under securities legislation is recorded, processed, and summarized and reported within specified time periods. The Company's Chief Executive Officer and Chief Financial Officer have each evaluated the design of the Company's disclosure controls and procedures as of September 30, 2022 and have concluded that these controls and procedures were appropriately designed.

Internal Controls over Financial Reporting

There have been no material changes in the Company's internal control over financial reporting during the nine months ended September 30, 2022, that have materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

RISKS AND UNCERTAINTIES

The securities of Enthusiast Gaming should be considered highly speculative due to the nature of the Company's businesses and the current stage of its development. Risks and uncertainties are discussed in great detail in the Company's Annual Information Form available on SEDAR at www.sedar.com.

The risks presented in the Annual Information Form may not be all of the risks that the Company may face. It is believed that these are the factors that could cause actual results to be different from expected and historical results. Other sections of this MD&A and the condensed consolidated interim financial statements for the three and nine months ended September 30, 2022, each of which are available on SEDAR, and other filings the Company has made and may make in the future with the applicable securities authorities, include additional factors that could have an effect on the business and financial performance of the Company's business. The market in which the Company competes is very competitive and changes rapidly. Sometimes new risks emerge and management may not be able to predict all of them, or be able to predict how they may cause actual results to be different from those contained in any forward-looking statements. You should not rely upon forward-looking statements as a prediction of future results.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The information provided in this report, is the responsibility of management. During the preparation of financial statements, estimates are sometimes necessary to make a determination of future values for certain assets or liabilities. Management believes such estimates have been based on careful judgments and have been properly reflected in the accompanying financial statements.

Management maintains a system of internal controls to provide reasonable assurance that the Company's assets are safeguarded and to facilitate the preparation of relevant and timely information.

The Company's Board of Directors follows recommended corporate governance guidelines for public companies to ensure transparency and accountability to shareholders. The Company's Audit Committee meets with management quarterly to review the financial statement results, including the MD&A, and to discuss other financial, operating, and internal control matters. The Audit Committee receives a report from the independent auditors quarterly and is free to meet with them throughout the year.
